Correction

Shortly after publication of 'Developing a Research Data Policy Framework for All Journals and Publishers' (Hrynaszkiewicz et al 2020), it was brought to our attention that important information regarding funding was not included:

"This paper was supported by the RDA Europe 4.0 project that has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 777388."

It was also found that the article's DOI was stated incorrectly in the supplementary file. The supplementary file has now been corrected.
